

Exhibit No. 8Date 2-12-07Page No. 55-9

"There is something deadly wrong with a society and a political system that permits a regime capable of such insane and criminal 'leadership' to remain in power. Zbigniew Brzezinski former National Security Advisor under President Jimmy Carter.

On the evidence of "Shock and Awe" and "Mission Accomplished," we (the people) are skeptical that "Surge and Accelerate" will accomplish no more than increased casualties.

Former National Security Advisor Brzezinski also warned of a false flag operation* which will occur in the near future in order to justify aggression against the sovereign nation of Iran.

This war is founded on lies and false flag operations – the World Trade Center and pentagon tragedies of Sept. 11, 2001 demand deeper investigation. i.e., who benefited from them? The fact that all of our security and intelligence agencies dropped the ball at the same time defies the laws of probability or indicates a criminally negligent administration.

This crime against humanity violates international law. The United States occupied Iraq without U.N. Security Council consent. Moreover, the suspension of the people's INALIENABLE rights is plain and simple treason.

There have been overwhelming civilian casualties as a direct or indirect result of U.S. aggression, not to mention the numerous friendly fire incidents on our few remaining allies.

U.S. presence in Iraq is not preventing sectarian violence.

The world is not safer. We have inflamed the whole Muslim world. Abu Gahraib prison and the detention center at Guantanamo Cuba are both rallying cries to all Moslems.

This is a war of lies. Our politicians lie to the press; they see their lies printed and call them public opinion. By repetition, each lie becomes irreversible fact upon which other lies are constructed. Then we have war. This war. As more lies become necessary more wars are needed to justify them. The easiest and cheapest trick for any leader is to take his country to war on false pretenses. Anyone who nails the lies is a radical malcontent, or an Islamist, or an anti-Semite or all three. A few corporations are sponsoring this war IN OUR NAME! They are stifling the natural growth of humanity. They spread tyranny, poverty and economic slavery. They defy the simplest laws of ecology. Warfare is the extension of corporate power by other means. Each thrives off the other and this war proves it. Their aim is to perpetuate the insane concept of limitless expansion on a limited planet, with permanent conflict as its desired outcome. Their product is the zero-educated robot worker – that can be programmed to stop a bullet. Sadly, our legislative branch is either impotent, complicit, didn't show up or simply cared more about the paycheck than the people.

Anyone who thinks that petroleum is our most valuable limited resource does not have children and cares not for those held against their will in Iraq, by our own government.

We (the people) will not be accomplice to the multitude of crimes committed by this administration.

Soldiers do not start wars. Politicians do. Soldiers and our young only pay the price of the politician's greed and hubris.

Those who fancy themselves 'Leaders' should prove it by strapping on a parachute, shout "follow me" and jump into the meat grinder.

Killing has intensified on the road to peace. It is time to withdraw and regroup.

Stephen M. Paparek

* False Flag Operation (or synthetic terrorism), how the problem, reaction, solution paradigm works;

1. Government creates or exploits a problem then attributes blame to others (subway bombings in London for example).
2. Populace reacts by asking the government for protection or help (in the present crime of Iraq, the government didn't even wait for the request).
3. Government offers solution that was planned long before the crisis.

Outcome; rights and liberties are surrendered in exchange for protection (or the illusion thereof – a perfect example is the Gulf of Tonkin incident that led to America's longest war – 1965 to 1975. 58,000 dead and gone for what?).
